Mental health

When we think of our health, we're often quick to talk about our physical health, but reluctant to talk about our mental health.

After a year of change and uncertainty due to the Covid-19 pandemic, it's more important than ever for us to watch out for our mental wellbeing and seek help when we need it.

In this factsheet, you'll find a list of reliable sources of information and support.

Remember: If you feel you're struggling with your mental health, reach out to friends, family and your GP for further support - you're not alone.
